Dear Sir, (Secretary of Labor)

I saw the television show about the migrant workers and their lives. I do not see any excuse for a condition like this inside the boundaries of this country. The U.S. is supposed to be an advanced country; is it so advanced with conditions that show up so greatly to outsiders? Foreign countries look on us from all sides, good and bad.

With communism in this world and even in this country, the communists will take advantage of any chance to add to it's worldwide strength and it's goal to dominate the world. This is one reason why we must correct this problem. The communists also influence other smaller countries greatly with all propoganda that they can

use against us).

I spent two years of my life in Chile, South America. I know how great the communists influence the common people.

You are also dealing with these people as fellow Americans. They are Americans that weren't touched by the freedom of this great country. They don't have the chance to be intelligent Americans like you and I. Some of these people might have been scientists, congressmen and other high positions in this country if they had been given a chance to be something.

I would like to help these people all that I can. If there is anything I can do or you have any suggestions to improve this condition please let me know. I will do everything in my power to help my fellow American.

Yours, Truly,

Kenneth L. Bowers Jr.
