## ABERDEEN-ANGUS CATTLE

*Coats, Kansas*

March 16, 1955

The President  
The White House  
Washington, D. C.

Dear Mr. President:

May we extend our hearty congratulations for your selection of Aberdeen-Angus cattle to be produced on your farm near Gettysburg. We have raised beef cattle along with wheat on our farms in Pratt County, Kansas, since 1905. Since 1939, our primary effort in the cattle business has been directed to the production of registered Aberdeen-Angus.

We are confident that you will find the raising of Aberdeen-Angus cattle both interesting as well as profitable and we wish you every success. Should you at some future date require further information, assistance, or cattle, we offer our service.

Respectfully yours,

*William L. Eubank*
