

## SOLDIER-FATHER MEETS DAUGHTER

Meeting his daughter whom he had never seen was the thrill Staff-Sergeant Bernard Veltman experienced when he was home on furlough recently. Becky, born in January, 1943, is now quite a big girl. Her father left the States Oct. 5, 1942, and returned recently after 35 months and five days overseas. He served in North Africa, Sicily, England, France, Belgium and Germany. Veltman was a field artillery computer. After a visit with his daughter, and his wife, the former Betty Lee Carlson, at West Walnut, S/Sgt. Veltman returned Saturday to Ft. Leavenworth, where he will receive a discharge from the army. Many other Salina soldier-fathers are returning to see their children for the first time.
